T7P - Carbide

FEATURES

- Tungsten Carbide tooth
- Positive rake tooth

BENEFITS

- Most heat resistant
- Aggressive sawing with a smooth finish
- Enhanced penetration in the toughest metals

APPLICATIONS

- Large diameter super alloys, high nickel alloys, titanium, etc.

Metric		T7P					
Width	Gauge	0,7-1	1-1,3	1,3-2	2	2-3	3-4
27	0,9						332-234
34	1,1				332-302	332-323	332-334
41	1,4			332-432		332-423	332-434
54	1,6	332-571	332-511	332-532		332-523	
67	1,6	332-671	332-611	332-632			
80	1,6	332-771	332-711
