

IMET
presents
XSMART4

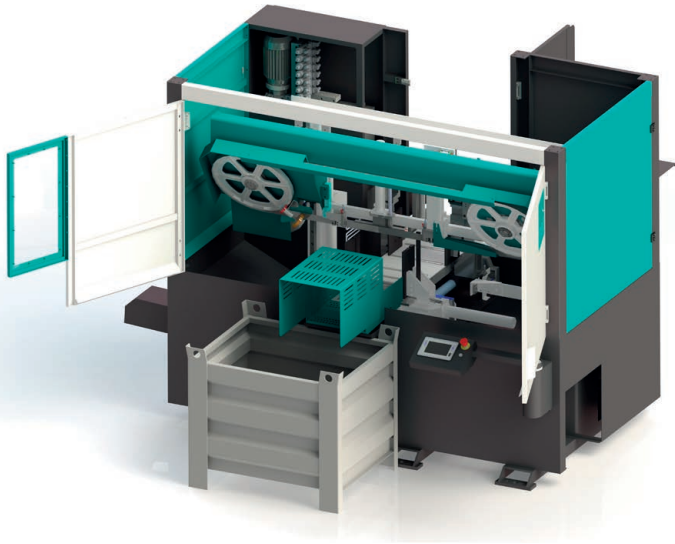

ENG - The new XSMART4 is an automatic, double column, straight cut bandsaw dedicated to professionals, workshops and every production plant where accuracy, precision, high cutting performances and efficiency are required.

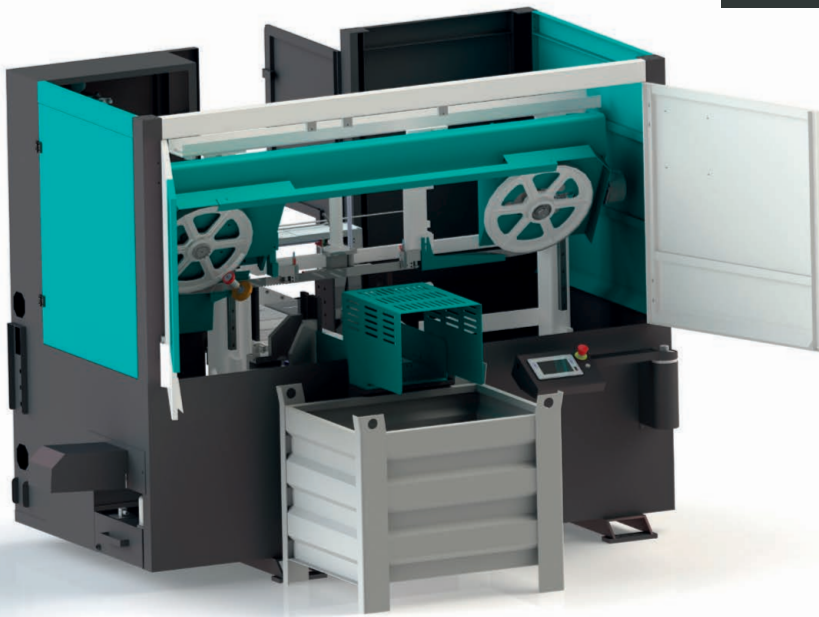

SETTORI DI APPLICAZIONE - APPLICATIONS

- > PRODUTTORI DI VALVOLE
- > PRODUTTORI DI MACCHINE UTENSILI
- > OFFICINE MECCANICHE
- > MAGAZZINI DI ACCIAIO
- > MACHINE TOOLS PRODUCTION
- > STEEL AND METAL SUPPLIERS
- > WORKSHOPS
- > MOULD BUILDING

- 7" touch screen display
- Simple, easy to use, intuitive interface
- Sawframe movement by hydraulic piston and linear guides with recirculating ballscrews
- 500 mm integrated feeder
- Feeder movement by electric motor with inverter
- Hydraulic vice with 4 jaws (2 before and 2 after the blade) with customizable configuration by the user
- Standard chips conveyor
- Thanks to the opening system on all 4 sides, the user has full accessibility for maintenance

INDUSTRY 4.0 READY

ENG - • Possibility to connect the machine to the company network to improve internal working process and workflow, thanks for Industry 4.0.

- SAWprogram is the dedicated software that allows to create and modify cutting programs on PC and send them directly to the bandsaw

- SAWfactory is the WEB APP that gives the user access from any device to the functioning parameters of the machine, allowing also to download working and production data to overview the machine functioning

DATI TECNICI / TECHNICAL FEATURES

Blade size	5050x41x1.3mm
Blade motor	4 KW
Minimum scrap-end	90 mm
Blade speed	15/100 m/min
/ Size	3000x2600x2200 mm
Weight	2800 kg
Working area height	890 mm

				
0°	350	360	360	360x360
