

**HIGH EFFICIENCY  
HIGH PRECISION**

We have equipped our slicing and drilling machine with a high-precision and high-torque servo motor, enabling it to open tapping on profiles. This will allow you to perform your operations very quickly and precisely in your multiple operations.

Optional tapping				
kW	n	I (220 V)	Tool Holder	Tapping Capacity
0,8	3000 r.p.m	4,83 A	ER 16	M10 (Max.)
